Mr. John W. Garrett,
Baltimore, Md.

Dear Sir: —

For some time past I have been working on the various collections of coins at Princeton, and last Spring President Hibben referred me to you as one who might give me valuable suggestions regarding my problems. He wrote me a letter of introduction which I was not able to use at the time, owing to a rather exacting teaching schedule at

the University, which prevented
my making the trip.

Now the news comes that you
are to be Ambassador at Rome,
a choice which reflects the good
sense of the present Adminis-
tration. Would it be possible for
you to grant me a few minutes
of your valuable time some
time before you leave? I should
like to consult you about the
disposal of a legacy of Ameri-
can gold coins that has come
to the University and would be
glad if you had the time to

Show me some of the more interesting pieces of your collection.

I realize my presumption in thus pressing on your valuable time. You may, however, have a few moments to spare for your pet avocation, and if I could share them with you I should consider it a great favor. I would of course fit my time to yours.

I expect to be here in Connecticut (near New Haven) until the first part of September, but

would be glad to make the trip
if you could see me. After the
middle of September I shall be in
Princeton; the University does not
open until the ~~last~~ end of the
month.

With sincere congratulations
on your new appointment, I am

Very cordially yours,

Dear Mr. Weber:

Owing to my absence in the Eastern Mediterranean I have only just received your letter.

I shall not be back in Baltimore for at least two or three months, indeed, I do not know now, even approximately, when I shall be able to return. If I had been there nothing could have given me greater pleasure than to have you come to Evergreen to discuss so interesting a question as the legacy of American gold coins that has come to Princeton and to show you some of the pieces in my collection. Perhaps, after all, we may be able to do that later on.

Thank you very much for your very kind congratulations on my appointment to Rome.

With best wishes,

Sincerely yours,

Prof. Shirley H. Weber,
